## Projects

---

### My Portfolio web app | HTML, CSS, JS, REACT

- Built a responsive portfolio website showcasing my skills and projects using HTML, CSS, JavaScript, and React.js.
- Leveraged React.js to dynamically render content and handle user interactions, ensuring a smooth and user-friendly experience.
- Implemented SEO best practices to ensure discoverability and maximize reach to potential employers or clients.
- This web application is deployed on azure static web application server.

### Amazon website clone | HTML, CSS

- Built a visually familiar e-commerce experience in HTML & CSS, echoing Amazon's layout, navigation, and product presentation.
- Demonstrated strong web development skills through clean HTML structure and effective CSS styling, showcasing responsive design principles.
- Accurately recreated key features like search bar, product listings, and shopping cart functionality, highlighting my ability to tackle intricate UI components.

### Media – player Application | HTML, CSS, JS, REACT

- Built a responsive Media-player website showcasing my skills and projects using HTML, CSS, JavaScript, and React.js.
- Leveraged React.js to dynamically render content and handle user interactions, ensuring a smooth and user-friendly experience.

### Media-player Application | HTML, CSS, JS, REACT

- Built a responsive Media-player website showcasing my skills and projects using HTML, CSS, JavaScript, and React.js.
- Implemented SEO best practices to ensure discoverability and maximize reach to potential employers or clients.
